

Signature Cakes

Lemon Olive Oil Cake

With fresh berries and homemade whipped mascarpone cream dusted with powdered sugar.

16 Layer Chocolate Cake

Layers and layers... and layers of rich chocolate cake with whipped chocolate mousse filling, covered in chocolate ganache and coated in chocolate shavings. You're going to need a glass of milk with this one...

Hummingbird Cake

This traditionally Southern cake stole my heart in Charleston, SC. A banana spice cake base with crushed pineapple, coconut, and pecans layered with cream cheese frosting. Think carrot cake but with bananas.

Linzer Cake

Our vanilla cake base with Madagascar buttercream and a layer of raspberry preserve and white chocolate ganache drip. So simple but so delicious. This cake could be decorated any way you'd like!
